The Honorable Ed Herschler
Governor of Wyoming
State Capitol Building
Cheyenne, WY. 82002

Dear Governor Herschler:

In compliance with the provisions of Chapter 39-1-303, Wyoming Statutes 1977, the Ad Valorem Tax Division of the Department of Revenue and Taxation submits its 1985 Annual Report. This report shows all taxable property in the State of Wyoming and the value of same in tabulated form.

Respectfully submitted

DEPARTMENT OF REVENUE AND TAXATION

Rudolph Anselmi

AD VALOREM TAX DIVISION

Warren A. Bower, Director

Robert St. Clair, Assistant Director

AD VALOREM TAX DIVISION

Objectives

The Ad Valorem Tax Division is the administrative arm of the State Board of Equalization. The primary duties of the Ad Valorem Tax Division of The Department of Revenue and Taxation can be directly traced to Article 15, Section 11 of the Wyoming Constitution, which reads in part: "All property....shall be uniformly assessed for taxation and the legislature shall prescribe such regulations as shall secure a just valuation for taxation of all property, real and personal." This provision and the many enabling statutes describe what the Division has as its objectives.

The Board must depend on local county assessors to carry out the state's equalization function and relies on them in the administration of the Ad Valorem Tax Laws. The Board cooperates and assists the Assessors in every manner possible to help ensure that all assessments are fair and equitable between property owners and between counties.

The Ad Valorem Tax Division is responsible for accumulating the necessary data for the Board of Equalization's use in determining the State General Fund and the State School Foundation Levy requirement.

Division personnel testify before the Board of Equalization during valuation appeals of both state and locally assessed property. The Division also investigates valuations which may aid the Board in satisfying an appeal without the necessity of a formal hearing.

The Ad Valorem Division keeps the minutes of the proceedings, appeals and deliberations of the Board of Equalization in matters involving all types of taxation.

The majority of the assigned duties of the Ad Valorem Tax Division are found in the statutes relating to the State Board of Equalization, the Tax Commission and the Department of Revenue and Taxation. The statutes generally define three major categories of properties, "exempt", "state" assessed and "locally" assessed. Relative to the state assessed property, the Division gathers, compiles and analyzes information relating to the valuation of all hard mineral production, oil and gas production, pipelines, airlines, railroads, public and private utilities, telephone and telegraph companies and private railroad car companies. This information, along with the Division's appraisals, is presented to the Board for its consideration in determining the fair and equalized assessed value of all state assessed properties. The Division then notifies all parties of interest. After the appeal period, these values are certified by tax district to county assessors to be added to locally assessed property as a basis for the levy of ad valorem taxes in various taxing districts in the respective counties. State assessed properties now represent 78.2% of the total State Ad Valorem Tax Base.

The Division, in cooperation with county assessors, prepares recommendations and guidelines for the uniform and equal valuation of locally assessed property. Division personnel inspect industrial complexes and plants throughout the state for the assessors. Applications for exemption of pollution control devices are also reviewed by this Division.

The Division compiles and maintains complete and current cumulative records of oil and gas production by counties; prepares and distributes annual reports relating to the taxable valuation of the state, by county and property classification; plans and conducts the annual assessor's school; meets with local assessors and other county officers on assessment matters; advises and confers with county assessors concerning the interpretation of the assessment and taxing statutes; aids the county assessors in the assessment of unusual properties in the various counties; and provides assessors with the instruction and supervision for local personnel employed to list the construction components of all buildings in the state for the revaluation program.

In addition to the direct constitutional and statutory duties, the Division also carries on many other activities. These activities include the appearance of key personnel at public meetings to discuss the valuation and taxation process; meetings between Division personnel and individual and corporate taxpayers to review appraisal techniques used; assuring equality and uniformity of local and state assessed values; and conferences with other state tax officials to discuss mutual valuation problems. In line with the stated purpose of attaining uniform and equal valuations, the Division follows Board policy by providing in-house training and cross training programs for its staff. Our training program also includes staff attendance at nationally recognized professional appraisal schools by appraisal personnel as budgets permit.

The Division has twenty full-time employees authorized, including a Director, Assistant Director, Supervisor of State Assessments, Supervisor of Local Assessments, thirteen Staff Appraisers, two Data Coding Technicians, and a Secretary Specialist.

Because of the great amount of statistical information generated, many local, state and federal agencies look to this Division for information. State agencies supplied with information in the past year include the State Department of Education, the Department of Economic Planning and Development, the Department of Administration and Fiscal Control, Environmental Qualities, the Legislative Service Office, the State Planning Coordinator, other divisions in the Department of Revenue and Taxation and members of the Legislature.

In addition, we have had almost daily requests from non-government groups seeking data for feasibility studies on energy development, and environmental impact studies being conducted by private groups, governmental agencies, universities and industries.

Statewide Appraisal Project

The 1967 Wyoming Appraisal Manual is being phased out and will be replaced by a New Wyoming Appraisal Manual prepared for the State by Cole-Layer-Trumble Company. The newer manual is computer assisted and is capable of annual updates in compliance with a Department Rule, which provides for assessments to be made on a current value basis.

The 1984 regular session of the Forty Seventh Legislature, under Chapter 70 Property Reassessment, amended W.S. 39-2-301 adding Section 2 relating to property taxation and appropriated ten million dollars for a reappraisal of selected taxable property and provided contract conditions. Of the total appropriation of ten million dollars in this Legislation, five million dollars

was finally authorized. A contract with Professional Appraisal Company, Inc. of Arlington, Texas, has been signed to appraise urban and suburban properties, commercial and light industrial properties, farm and ranch improvements, farmstead land and mobile homes. In addition, a contract has been signed with the Thomas Y. Pickett and Company, Inc. of Dallas, Texas, to appraise 134 large industrial properties in Wyoming. Both companies have begun their work in Wyoming, and the completion date for the statewide appraisal is September 1, 1986. Whenever staff personnel from the Local Assessment Section of the Ad Valorem Division are available, they are sent out to monitor the progress of the statewide reappraisal.

State assessed property will be revalued in-house using a valuation consultant to review the correctness of the methods used.

The International Association of Assessment Officers (I.A.A.O.) have begun their Legislature mandated study and report of the assessment practices of the State Board of Equalization. They will complete this task on or before December 1, 1985.

Revaluation of Agricultural Land

Wyoming Statute 39-2-103 enacted by the legislature in 1973 requires all agricultural land to be valued for tax purposes based on its capacity to produce agricultural products. To comply with this legislation, an entirely new system of valuation was put into effect. Soil classifications and productivity ratings developed by the Soil Conservation Service of the United States Department of Agriculture were determined to be the most readily available data and were adopted as a basis for determining agricultural land valuation for each group of soils.

On the County level, the agricultural land program continues to require the assistance and supervision of our staff. The Division's appraisal of agricultural lands has been generally well accepted by the Agricultural Community. To date, seventeen Counties have been, or are in the process of being replatted. Soil surveys are utilized when they become available. We have received excellent cooperation from several federal and state agencies, and County Assessors have been extremely receptive to the Division's Agricultural Land Program. Input from the agricultural community has been very useful and we are encouraged by the support that they have given to the mapping program. In 1983, we assigned one full-time person to this project, and we believe that progress has been greater in this area than at any time in the past.

In recent months, our Soils Specialist has devoted some time to the development of a prototype for town lot mapping using techniques similar to those employed on rural lands. Upon approval of the model mapping system, it is estimated that this form of mapping could be in production early in 1986.

Meetings with representatives of various agricultural organizations have been held in previous years, and will be repeated in 1985 to consider proposed livestock values and the annual update of the agricultural land valuation base to current levels.

The State Board of Equalization took action in 1985 to apply the same equalization factor (8%) to agricultural land as was applied to other real estate.

Valuation of All State Assessed Property - 1985

This program has as its objective the valuation of all property required by law to be assessed at the state level. The accomplishments of this program can be best shown by showing the types of property assessed, the number of companies and the total valuation for the past year.

No. of Companies or Producers	Type of Company or Production	Assessed Value
578	Oil	$3,128,164,344
375	Natural Gas	1,484,730,803
23	Coal	1,230,917,455
9	Bentonite	14,108,737
106	Sand & Gravel	4,044,904
5	Trona	95,792,777
10	Uranium	21,750,901
33	All Other Minerals	8,117,225
25	Liquid Pipelines	40,673,598
14	Gas Pipelines	76,192,294
14	Municipal Utilities	2,569,400
26	Private Utilities	169,474,663
8	Airlines	1,029,955
13	Radio-Telephone	674,670
24	Rural Electric	115,031,910
20	Telephone & Telegraph	97,024,439
5	Railroads	72,329,390
		$6,562,627,465

The foregoing assessed values are certified to county assessors where the property is located or where the minerals are produced to be entered on the local tax roll.

Assistance to Local Assessors

This program's objective is providing ongoing assistance to assessors in the many and varied problems they face. Local assessments comprise approximately 21.8% of all of Wyoming's taxable valuations and amounted to $1,826,529,350 in 1984. While these assessments are classified as local, the Ad Valorem Tax Division directly calculates a large portion of these values for the assessor. For instance, this Division has appraised some 15,000 residential, rural and commercial buildings for the local assessors in 1985.

The Ad Valorem Division also appraised 144 industrial plants and complexes which had a current value of $3,081,184,296 and a taxable valuation of some $246,494,744. The appraisal of these industrial properties requires frequent on-site inspection of the plants, with close attention to yearly changes and allowable exemptions for pollution control devices. While these properties are

local assessments, the Division provides this service as part of our program of assisting the local assessors as well as providing for continuity and record keeping in the event of an assessor change.

The Division also provides recommendations and guidelines to the assessors for most other types of property located within their counties. Among the published guidelines and recommendations we provided to the assessors recently were equalized agricultural values for irrigated land, grazing land, dry farm lands, current valuation for boats, tractors, construction equipment, bowling alley equipment, drilling rigs and equipment, aircraft, oil field equipment, commercial furniture and fixtures, livestock values (which are only subject to predatory and brand inspection taxes) and mobile and transportable home valuations.

In addition, we provide the assessors with a listing showing all legal limits for mill levies and provide almost daily information, by telephone or letter, in answer to the many requests for information and assistance that we receive from the assessors.

The Division provides a frequent updating of information contained in an assessor's handbook which was compiled and furnished to the assessors by this Division. This includes such information as the interpretation of the statutes, opinions of the Attorney General relative to assessment and taxation, general information relative to the duties of the assessor and operation of the office and a multitude of other pertinent information. A manual for appraising non-agricultural land and town lots was published during 1983.

Problem Areas

The Division is now appraising directly 1,220 companies including private car companies plus 144 industrial facilities. These properties must be identified by situs and assessed values certified to assessors in one or more of the 341 individual taxing districts. These districts which include the 23 counties, 96 municipalities, 48 school districts, 54 fire districts, 37 cemetery districts, 17 recreation districts, 27 water and sewer districts, 11 hospital districts, 1 museum district, 7 solid waste districts, 2 water conservation districts, 14 improvement and service districts and 4 areas of separate bonding levies. (Mountain Bell has property subject to 248 individual taxing authorities.) Special districts were created by the legislature to authorize taxes in excess of constitutional limitations imposed on counties.

Inflation affects all property differently. Generally speaking, the value of any property is based on a buyer's opinion of the present worth of future benefits derived from ownership. Existing utility property values tend to be rather stable since regulatory agencies only permit them to earn on book value (depreciated historical cost). Unregulated property, such as housing, tend to increase or decrease in values as rentals change. This difference presents two entirely different appraisal problems and two entirely different training programs for division personnel.

Legislation

The Forty-eighth Legislature enacted the following laws directly affecting the Ad Valorem Division:

Chapter 61 -- Personal Property Taxation

AN ACT to amend W.S. 39-2-101(a)(ii) and (iii) relating to taxation of personal property; providing for the taxation of property for a proportionate part of the tax year; providing that livestock brought into the state after the normal assessment date may be assessed for special taxes in any county in which they remain at least 30 days; providing conditions; and providing for an effective date.

Chapter 74 -- Mineral Taxation

AN ACT to amend W.S. 39-3-101 by creating a new subsection (d) and renumbering subsection (d) as (e) relating to property taxation; stating the liability of mineral lessors and lessees for taxes due for mineral production under the lease; and providing for an effective date.

Chapter 103 -- Board of Equalization

AN ACT to amend W.S. 39-1-304(a)(ii) and by creating new paragraphs (xxi) through (xxiii) and by creating new subsections (c) and (d) relating to property taxation; prescribing and additional duties of the Board of Equalization; requiring that certain actions of the Board be adopted by rule in accordance with the Wyoming Administrative Procedure Act; and providing for an effective date.

Chapter 148 -- County Assessor Education

AN ACT to amend W.S. 18-3-204(a)(viii) and by creating new paragraphs (ix) and (x) and 39-1-304(a)(xx) and by creating new paragraphs (xxiv) and (xxv) relating to County Assessors; providing continuing education requirements for County Assessors; requiring County Assessors to implement appraisal and assessment procedures and methods ordered by the State Board of Equalization; requiring the State Board to conduct a course of continuing education and to monitor the work performance of County Assessors; and providing for an effective date.

Chapter 170 -- Real Property Statement of Consideration

AN ACT to create W.S. 34-1-142 through 34-1-144 relating to requiring certain real estate instruments to be accompanied by sworn statement of consideration upon presentation to County Clerks for recording; providing for the use of the

statement of consideration; providing for exceptions; providing a penalty for falsifying or publicly disclosing the statement of consideration; providing for confidentiality; and providing for an effective date.

Chapter 182 -- Petroleum Mining Tax Incentive

AN ACT to amend W.S. 39-2-202 by creating a new subsection (e), 39-6-301(a) by creating a new paragraph (v) and renumbering (v) as (vi) and 39-6-302(a), (b), (g) and by creating a new subsection (h) relating to taxes on oil and gas; exempting oil and gas produced from collection wells from Ad Valorem property tax through 1989; reducing the severance tax on oil and gas produced from collection wells through 1989; providing the severance tax shall increase to six percent in 1990; providing definitions; and providing for an effective date.

Litigation and Appeals

The number of appeals docketed in 1985 was greater than in previous years. There were twenty-six appeals from decisions of County Boards of Equalization; six Appeals from decisions affecting excise taxes; four appeals for exempt status determination; six appeals from mineral producers; and thirty appeals from Utility, telecommunication, and pipeline companies questioning valuation and/or equalization. As of September 1985, twenty appeals have been heard, settled without hearing, or decided by the State Board of Equalization.
